**Održivi razvoj turizma.**

## ▶ RELEVANTNOST Međunarodne politike

- ▶ Ako želi biti dugoročno održiv, turizam mora uključivati načela i prakse održive potrošnje.
- ▶ Održiva potrošnja obuhvaća **razvoj potražnje** turističkih usluga - koje su pružene na način koji uključuje smanjenje utjecaja na okoliš.

SUSTAINABLE  
DEVELOPMENT **GOALS**  
17 GOALS TO TRANSFORM OUR WORLD

## ▶ **TRENDOVI NA TURISTIČKOM TRŽIŠTU**

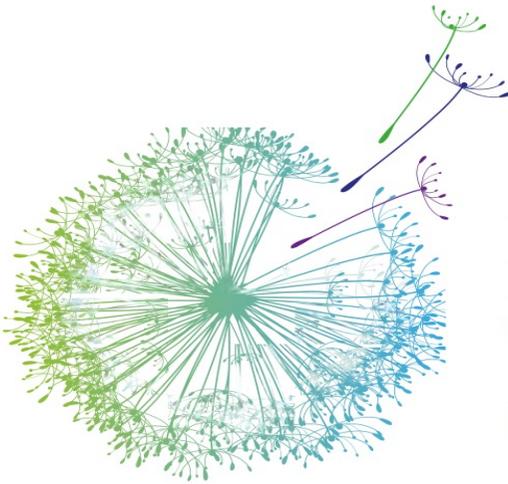

- ▶ 71 % putnika želi veću ponudu održivih opcija za putovanje (Booking.com 2019)
- ▶ 50% putnika platilo bi više za smještaj u eko-prijateljskom smještajnom objektu (TripAdvisor)
- ▶ 68 % putnika kaže da im je važno da novac koji potroše na putovanje ostane u lokalnoj zajednici koju posjećuju (Booking.com 2019)

## ▶ RELEVANTNOST Politike Europske unije

„ Europa: svjetska turistička destinacija br.1 – novi politički okvir za turizam u Europi” (Europska komisija)

### 4 prioritetna smjera razvoja:

- ▶ Promovirati razvoj održivog, odgovornog i visoko kvalitetnog turizma
- ▶ Konsolidirati imidž Europe kao kolekcije održivih, visoko kvalitetnih turističkih destinacija
- ▶ Poticati kompetitivnost turističkog sektora u EU
- ▶ Maksimizirati potencijal financijske podrške razvoju turizma

## The EU tourism industry

Tourism has a wide-ranging impact on growth, employment and social development in the EU

- **12 million** people are employed in the sector
- Inbound tourism contributes **€356 billion** in annual revenue to the European economy

The European Commission supports tourism businesses in the EU by providing:

Initiatives to improve employee skills

Guidance on going digital

Tools to optimise daily management

Internal Market, Industry, Entrepreneurship and SMEs

## GUIDE ON EU FUNDING 2014-2020

FOR  
THE TOURISM  
SECTOR

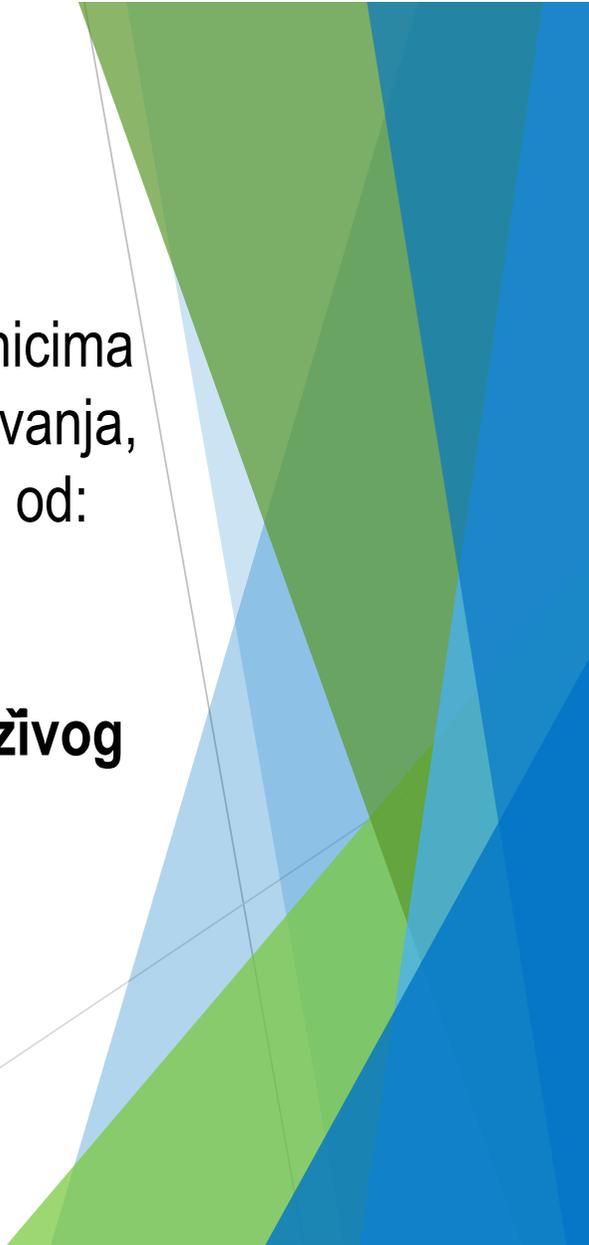

► **RELEVANTNOST  
Nacionalne i lokalne politike**

► **PRIMJER KONKRETNIH  
SMJERNICA:**

Akcijski plan razvoja zelenog turizma, usvojen 14.7.2016., nastao kako bi doprinio postizanju globalne prepoznatljivosti na turističkom tržištu, tržišnom repositioniranju s destinacije sunca i mora prema ponudi raznovrsnih autentičnih sadržaja i doživljaja.

“**Kao realni cilj**, s obzirom na sve izraženiji interes među dionicima te uz pretpostavku pokretanja šire i intenzivnije akcije ozelenjivanja, a na temelju svih postojećih alata i preporuka, postavlja se cilj od:

**10% tržišnog udjela** (trenutno je oko 1%) **certificiranog održivog turizma do 2025.** “

Izvor: Akcijski plan razvoja zelenog turizma, 2016., str. 12.

“Kroz razne programe i projekte podržane od strane EU razvijen je veći broj smjernica i drugih alata za razvoj održivog turizma, među kojima se svojim značajem i kredibilitnošću ističu dvije:

**DESTINET** [www.destinet.eu](http://www.destinet.eu)

(Knowledge Networking Portal for Sustainable and Responsible Tourism / mreža znanja za održivi i odgovorni turizam) je svojevrsno referentno mjesto za održivi turizam u Europi.

**EDEN** [www.youredenexperience.com](http://www.youredenexperience.com)

(European Destination of Excellence) je projekt koji je EK pokrenula u skladu sa smjericama turističke politike EU”

## All Sustainable Tourism Certificates on DestiNet.eu

The world is diverse - and this makes it so interesting for travellers. The wide range of sustainable tourism certificates currently available reflects these differences with appropriate and controlled criteria which allow us to judge whether a particular tourism service has good environmental and sustainability management and performance.

DestiNet provides key information on each certificate and standard - and promotes the certificates to the tourism marketplace.

### Responsible tourism is when:

- ◊ Businesses find out about appropriate certification programmes.
- ◊ Destinations encourage their tourism services to participate in certification schemes.
- ◊ Tour Operators collaborate with certified hotels and tourism service providers.
- ◊ Travel agencies inform their clients about sustainable travel opportunities.
- ◊ Travellers buy the better choice.

## The Tourism2030 Clustering Programme - SDG Collaboration Opportunity

At ITB Berlin in 2019 we launched of the "Tourism2030 - *Travel Green Planet* Mapping Initiative"

This initiative aims to have all tourism in protected areas certified by 2030 as its flagship goal under SDGs 12, 13, 14 and 15, with our current Tourism 2030 - Green Travel Maps and App providing the baseline measure and the system that each member state or region can tangibly contribute towards.

# THE END OF TOURISM AS WE KNOW IT

## PEOPLE-BASED GROWTH

As one of the world's most livable cities and regions, Greater Copenhagen offers strong appeal to travellers, especially in an era of seeking out temporary localhood. Livability is intuitively entwined with the people living in it. The delivery of an authentic experience of a livable destination depends on the locals, while the livability of our destination in turn depends on the extent to which we ensure people-based growth and a destination in which locals interact with visitors in a way that is at least balanced and at best contributory to the livability of locals. While strengthening our efforts to attract more visitors, we increasingly need to do so from a people-based growth perspective: growing not only to increase the number of visitors, but also to expand the value of visitors both to society at large and on a human scale.

This means we **will**

- **Ensure updated insights on interaction between visitors and locals.** We will develop updated data and knowledge of visitor sentiment and interaction with locals, as well as the locals' sentiments and interaction with visitors in order to identify friction points.
- **Engage more stakeholders in ensuring people-based growth.** We will involve urban development stakeholders (public parties, city data platforms and urban planners) in ensuring the people-based growth of our destination and actively dissolving pain points of visitor pressure.
- **Work to enable shareable moments between locals and visitors.** We will identify relevant initiatives to enable positive encounters between visitors and locals.
- **Achieve our ambition of the perfect match between urban and countryside.** We will work to realize the shared Greater Copenhagen ambition to strengthen sustainable visitor growth and diversify the experiences of visitors.

This means we **will not**

- **Grow for the sake of growth,** but focus on enabling sustainable growth of our destination that is based on people and localhood.
- **Ignore the urgent issues of visitor pressure in other European destinations!** Though neither stakeholders nor citizens perceive the number of visitors to be an urgent problem in our destination today, we will not put ourselves in the same reactive positions as our friends and colleagues in Berlin, Amsterdam and Barcelona. We will introduce proactive measures to ensure the continued sustainable co-development of visitor growth and local livability.

We **succeed** when

- **Locals recognize the value of our visitors!** When locals actively advocate for the value added by visitors to our urban diversity, cultural consumption and pride in our hometown.
- **Visitors become active advocates for our destination!** When we deliver a sense of localhood that allows visitors to integrate themselves in a unique local experience and return home as active recommenders of our destination to others.
- **Sustainable growth is considered the only relevant kind of growth!**

## TOWARDS A NEW BEGINNING OF LOCALHOOD

STRATEGY 2020

Travelers can be confident that properties with the badge have had the impact of their sustainability practices assessed through our independently verified criteria model.

## Our internationally recognisable and independently verified programme is now available for all properties

Our **Travel Sustainable badge** offers partners across the world recognition for their sustainability practices.

Our system reviews submitted attributes against our independently validated model of sustainability criteria that takes into account geographic specifics related to the accessibility & cost to implement certain practices. Based on this input the assessment determines an overall impact score which informs eligibility of receiving a badge.

## Introducing our new way to recognise your sustainability efforts

Dear Partner,

Travel does so much good, from creating unforgettable memories to breaking down borders. But travel can also come at a cost – to our planet and its people. It's never been more important to work together towards a more sustainable travel industry.

That's why we're launching [Travel Sustainable](#) – our new programme created to champion your efforts.

### **Congratulations on your badge!**

Since you already have a wide range of sustainability practices in place, we've recognised your property with our new Travel Sustainable badge. The badge is displayed on your property page, in search results and travellers will easily be able to find your property through our new Travel Sustainable search filter.
